I can't bear the statements of my husband that "certification of the election by Pence, who is an honourable man, means there was no fraud." Or a friend saying that Trump's tweets incite violence and should be banned. I know it's not about me but the gaslighting is unreal. Getting real hard to stomach.

Remind him that Biden was beaten soundly by the records of both Killary and the Kenyan in every state EXCEPT those 6 which, without precedent and without reason - but simultaneously - stopped counting in the middle of the night. While he was behind there also, enough votes poured in over subsequent WEEKS to blow the totals of both the first black candidate and first woman candidate well out of the water. The senile white male candidate with no policy platform and who didn't campaign. See if any of that cuts through.

That, or wait for the MOAB incoming from Trump, which we hope and pray exists and is epochal.

I have told him all these things. For some reason none of it cuts through. The only thing that seems to resonate with him is how decrepit fools like Romney, Pelosi and McConnell must have been elected for so long with voter fraud. He can believe that. But for some reason his TDS absolutely blinds him to anything to do with Trump. The "people must have voted Trump out." TDS is real folks. I know we don't need the MOAB to win, but we will need it to break through TDS. He just parrots MSM talking points when it comes to the stopping in the middle of the night etc. I have given up TBH.

When you boil it down, what you're arguing for is that every institute of power and our entire ruling class are a bunch of traitorous, corrupt parasites.

That conclusion is just too much for some people to bear. Especially with our mental health already taking a beating thanks to these lockdowns.

They'd need a literal group meeting of the Fulton County election board with a whiteboard showing exactly how they'd commit the fraud then a second video showing the area you can't see where votes are adjudicated for Biden from Trump...and also video of the ballot factory where they print out Biden ballots then stuff them into ballot boxes and truck them across the state to get scanned....

in other words things that can't possibly exist because the criminals themselves would have to willingly film themselves committing and planning the fraud.

It doesn't work. Just FYI. Not trying to be a dick, but there is no proof a citizen could possibly come up with that would sway people who have already been informed that your evidence isn't enough.

The *one* thing I've had any luck with is asking why it's up to *me*, a random private citizen, to provide proof of fraud *in an election*, and not up to the government to prove that an election was legitimate. For instance, imagine demanding

that a random Soviet citizen *prove* that Stalin wasn't legitimately elected, rather than demanding that the USSR prove fair and transparent elections.

(Worse: this is literally what happened in the USSR, down to the "small" errors here and there, seemingly unconnected, while they ignored it or downplayed it nationally, demanding "proof" from random people that there was in fact a problem. Here in the US, we took that to mean the obvious: they were cheating, and thus not a legitimate government. We've come a *long* way since then, I guess.)

This one seems to shake people, but if we're being honest they still don't care and usually just brush it off with a "teehee, but at least drumpf lost!" From other comments, it seems you have a hard time believing how many of your fellow citizens are Soviets now. I'm really, really sorry. It brings me to tears, but there it is. Your life will be better if you acknowledge and move forward with this info.

Ignore Trump. Ignore the Election. Challenge him on Cuties. Does he disavow Cuties on Netflix? If not, ask him why he supports child sexual exploitation.

If he disavows child porn (and there is a possiblty he will refuse), then just move to the next evil globalist thing. Mandatory hormone blockers for all children until they consent to their gender. Does he support that?

What about BLM burning down a Wendy's? Does he support that?

How about the intent to deface and destroy Mount Rushmore?

Eventually, issue by issue, it's possible to show someone they oppose the Democrats and agree with Trump, but if they have TDS, they won't admit it knowingly.

Hey, me too. For whatever reason my husband has decided to ignore it. I've even told him that according to his sources, Russia and covid are both real. He's a Trump supporter and doesn't believe the propaganda on those. But for some reason he can't see the fraud and won't look at the evidence. We're at a standoff and I figure it'll just be that way. I have a different life experience than him and take politics and rights way more seriously after spending time in Zimbabwe, India and China. So I've decided our lives, which inform our perspective, has put a burden on me but not on him to pay attention to this stuff.

I would point out the ga late night vote counting. If poll watchers were sent home and counting continued, then the vote was compromised. You don't need to "show" any fraud after that, even though we can see suitcases of ballots being pulled out. There was no transparency and so the election was a sham. Not to mention that the sos will not release their "numbers".

Yeah, I wish that mattered, but he honestly couldn't care less about that, or the affidavits, or Giuliani, or the audit of Dominion machines in MI. If Hot-air won't report it, he's sure there's no credible evidence. Even though I keep telling him the evidence itself has never been tested by the other side.

The best I've gotten was a checkmate when I asked if it was more probable that Trump paid thousands of people to write affidavits under penalty of perjury and put them on the stand and had countless lawyers risk their reputations over a hoax, or that the Democrats figured out how to hack an election system and switch votes to themselves.

Sorry. Civil wars are fought between families. If you can't see the evidence in the CCTV footage, or the hundreds of people who weren't allowed to observe, or the v truck driver with a trailer full of ballots, or the shredded ballots they just found. If there was no fuckery, a full audit would clean that up real quick. They know what an audit will expose. And they are being threatened by people in the shadows.

Now we have to work on our teenage daughters who think we're heartless and evil because we support orange man.

That doesn't even count our siblings and inlaws and parents.

They don't need to take the guns now because they know nobody is willing to use them. People think there is going to be this moment where they try to storm your house and drag you to a concentration camp and you have to shoot back. That's not how they are doing it. The takeover of America was completed in a more sneaky way, without ever giving us a clear target to shoot or even rise up against. They won't march us to the gulag. They will turn our own homes into the gulag. That way your gun stays locked in the safe in the closet and never comes out. There will be no clear moment when the gun actually needs to come out. Especially with their suppressive control of the media. There will be no point when picking up arms and shooting back at them will be supported by the media.

That would need to be done with plausible deniability though. Like a small militia of many 100 men chooses their first target, then storms the target's mansion in the middle of the night and executes the target. Maybe they even do it quietly, slitting their throats, and then they are able to sneak out without creating a stir. Then the militia could leave,

undetected, and storm a second target in a different state the next night. And if those targets alternate between left and right, the media won't be able to blame Trump or our movement or American Patriots. It would just be a mystery. The world's corrupt elites would keep being executed in the middle of the night and no one would know who it was, or who was next. Corrupt celebrities, pedophile activists, FAKE NEWS journalists - the target could keep changing so that none of the corrupt elites would know if they were safe, in Minecraft.

Because of the enemy's control of the media, angry mobs aren't going to work for us. America has fallen to the CCP and we are now in a guerilla warfare situation.

had to explain to a drunk old man with "a 160 iq" 3 times that we were not violent and the person who was killed was a woman veteran killed by the police. 3 times. guy is a die hard liberal and kept bragging about how he had submitted papers to some organization, they probably sucked because the guy is a drunk and pretty sure working as a clerk.

I find a few things inevitably true when someone quotes their IQ on the internet:

It was either derived from a shitty internet "IQ test" that isn't an IQ test at all or they just made it up whole cloth, and their IQ is definitely *not* anywhere near where they claim, usually following a bit of an inverse where the higher it is claimed the lower it clearly is.

Just FYI, Albert Einstein is thought to have an IQ of 160. There's a little girl in the UK with an IQ of 160 that got a bunch of media for it. *That's* how high 160 is: it literally gets reported on in the news, and it puts him up there with some of the smartest people in all of history... If he was smart, he probably would have picked a more realistic number.

Great time to get in shape. Drop weight. Do pushups. Get off carbs and go primal / keto. Keto and intermittent fasting promote clearer thinking. Learn to meditate - promotes clear thinking, steady emotions and objectivity.

If you aren't a vet, figure out how to use vpn, tor and torrents to get the fun information and manuals you will need to build knowledge.

Map your local area. Go / Slow Go / No Go areas.

Categorize individuals in your area - friendly, enemy or uncommitted.

If you shoot, practice more. Dry fire. Holster drills. Clean your firearms. Confirm zeros.

Pray. Get closer to your higher Being.

Go Galt. Starve the beast by not supporting globalist companies.

Pray you won't need any of this preparation. Plan for the worst and hope for the best.

Why let them set the narrative. That is the surrender I speak of. Everything is defined as the media says it is.

Tomorrow we could wake up to a chorus of "Goddamn CNN saying the sky is green. All we want is for it to be blue like in the old days."

Notice that last bit? That's narrative surrender. You already conceded the sky is now green and that blue is the old order. And as such the right "leaders" have conceded that this was violence, common folk walking into the King's chambers. They have already lost the war before it even started because this is what they ALWAYS do.

They will never stand by you because they profit off you.

They set the narrative because they control the narrative. I agree that we should resist it, but resistance only goes so far. Their control of the narrative means they also get to set it. Their version of events automatically becomes the default. That means when two or more people are communicating, the assumption is that the others all submit to the default narrative. So you could have a boardroom of Trump supporters and if they don't bring politics to work, everyone in that boardroom would believe they were the only one who didn't trust the media.

I think we have to recognize their dominance here and then work around that. We cannot be naive and think, "Well, if we just articulate our message correctly!" or, "Well, if we just march peacefully enough and enough people show up!" Those are old ways of thinking that we all habitually fall into now, much like when we say, "When people see how bad they are, we will vote them out!" But there is no voting, there are no elections. In the same way, there is no way for us to control the narrative. It doesn't matter how much truth we show to them. That is us just naively believing they are honest actors. They aren't. Probably if we were forced to watch them commit their crimes against children this would snap into focus. We would immediately realize they are unreachable.

The ones who agree with us will desert or not re-enlist and the brass will keep being deepstate traitors.

We are significantly more powerful than any government institution when we are organized and working together. They can't stop a million of us in the same place.

Organize locally, lead locally, fight locally. April 15th, July 4th, Labor day, massive protests. Occupy your local federal building. Make them scared again.

That's just typical government bureaucracy for you. No one ever imagined this would happen, police get lazy and think a metal railing will stop a mass crowd.

Same reason terrorists were able to hijack two planes and fly them into skyscrapers. Classic government failure.

I guarantee if Pence or Harris wasn't able to escape, Secret Service would have mowed you all down without a thought.

Probably same with the congressmen. I think all of them managed to escape before most insurrectionists got close to the chambers, and a tactical retreat of the real guards with guns made the most sense.

I'm sure the tunnels were protected with heavy steel doors and shit, you were never getting in there.

You just argued my point. We could have easily nuked Afghanistan and killed millions. That would be easy. It's harder to control (or occupy) a country. That's why endless wars are never won. If the job was to "kill all brown people there" we could have that knocked out in a few days.

I agree with your sentiment, but when I was watching them storming the Capitol live, I hardly saw any of them carrying firearms inside the White House, and if they were to insinuate violence, police would have started a massacre without no hesitation. I do not condone violence, but I'm a big believer in accelerationism, and as time goes by as Democrats have complete control of House, presidency and eventually Senate, the Right is no longer dealing with a then non-existent system, where violence will actually be used at that point to spread our point. E: Fucking hell the editing option on this site is BAD, I can't even fucking edit things properly, some words weren't added after trying to edit the response.

I've had so many bad encounters with police officers I don't understand how anybody could defend their behavior.

When I was 16 a police officer pulled me through the window of my car threatened to shoot me in the leg because I was going at five over on "his road"

In my early 20s a police officer pointed their gun at a group of my friends because they thought we were loitering.

My wife cheated on me with a police officer and he used his power to make my life a living hell.

I spent a night in jail after my mom accidentally swatted me when I'm watching her house.

how are any of these things upstanding behavior that's protecting and serving.

I'm not giving up because America is bigger than President Trump because as Thomas Paine said in "The American Crisis":

"These are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country; but he that stands it now, deserves the love and thanks of man and woman.

Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph.

What we obtain too cheap, we esteem too lightly: it is dearness only that gives every thing its value. Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as FREEDOM should not be highly rated."

I don't see the words "I concede".

I see good lawyer-speak to de-escalate a situation and put the enemy off balance.

He is in his most highly leveraged position at this time for the next two weeks. Trump does not waste leverage.

Unless he says "I concede", then he has two weeks to play his trump cards.

The words "I conceded" aren't magical. Conceding means you are no longer fighting to win.

Trump says there will be a peaceful transition of power. There is no such thing as transitioning power to yourself, and the sentence clearly implies that he transferring that power to Biden.

Trump will never in a million years say the word "conceded" or "surrender" or anything else. It doesn't mean he's still fighting for the throne. I think once Pence proved he isn't blindly loyal, the protection that Trump had from being 25th out of office vanished. Even if he tried to retain power through IA or EO or something, Pence would just remove him at this point.

I do not see any indication that Trump is still in this fight if he's talking about a peaceful transition of power. He'd be talking about peacefully RETAINING power otherwise.

Individuals don't transition power, administrations do. 45th administration to the 46th administration.

Pence cannot unilaterally remove Trump.

You don't see any indication that he is still in this fight and I don't see an indication that he is not. Why would he broadcast what he is going to do next?

You and I will know by noon on 1/20.

▲ 2 ▼

– [BastionCity](#) 2 points 9 hours ago +4 / -2

But Trump would not be the 46th administration in a second term. He'd still be the 45th administration. That's my point. He'd be retaining power, not transitioning it to a new administration.

If he's using the word "transition power", that means it's going to a new administration. Which means, not his.

Pence can't unilaterally remove Trump, but his word is going to carry enormous weight. Yesterday proved that the government is done with Trump. People are resigning, objectors withdrew, Pence was deploying the NG.

Trump has probably never even done his own shopping. I don't really see how he could fight on without literally any governmental allies to back him up, even if he wanted to, which, again, it doesn't seem like he does. Since he intends to transition power.

Whether he concedes or doesn't concede has absolutely no bearing on biden becoming President.

You need to understand this. He won't ever "concede". He will however peacefully transition power (has he promised on video weeks ago) to Biden despite Biden fraudulently "winning" the election.

Again- conceding or not conceding is moot.

This is a "concession" in every way that matters.

I just mean a lot of us are waking up to reality. Nobody is coming to save us. We have no institutional voice or real access to power. We are dissidents in our own country. The silver lining is that at least we can stop wasting time and effort supporting those who won't support us and start pursuing real paths to victory. Of course there are disagreements on what those paths might be, but at least we can start on a real path.

If Trump gathered a seal team in the situation room, showed them the evidence of the corruption, I’m sure they would be motivated. Now go to a base have a whole fucking brigade look at the evidence all at once. Have the hard charging seals motivate them with speeches of patriotism and their oath and obligation. Then fucking march on Washington DC with who’s willing to actually take the country back and defend America.

I believe he needed this to play out until the very end of the constitutional process for several reasons.

1. To give every chance to de-escalate without a civil or global war
2. To collect more evidence from the GA runoff and unmask the last of the traitors and weaklings.
3. To bring us right to the edge of the abyss so we all understand how close we came to falling in. We can’t be soft
- everyone needs to understand this is an existential event.

Maybe I am wrong, but Trump has two weeks and a ton of executive authority, tools and laws he has not used yet.

I will worry on 1/21/21, which is also the same day the People need to pick up the real fight.

There is nothing else that can be done by Trump to be re-elected. No secret “plan” no “this is a movie playing out”.

The Dems successfully stole it. I don’t think Trump anticipated nearly this level of betrayal, backstabbing and cuckery from GOP, SCOTUS, Governors, senate, legislatures etc yet here we are.

It’s fine to have “hope” for a miracle I guess but remember to remain grounded in reality otherwise you may be very disappointed.

Simple critical thinking and logic shows that 1-6 was Trumps “last chance”.

There are no more paths.

But yesterday sparked a movement. Especially with the all our gaslighting from the media today. Maga pedes (75 million) are united like never before.

Yesterday was the pre-planned setup.

President Trump knew about what was going to happen today, and called us all (in masses) to be there to witness the siege of the Capital, then (and get this) "DISMISS US" (an act necessary to invoke the Insurrection Act).

Repeat, this "dismissal video" (which is being scrubbed from YouTube, and other sites) is a requirement in order to enact the Insurrection Act.

For more on this, I encourage everyone to go over to our SISTER SITE - <https://greatawakening.win> -

SLOWLY, and CAREFULLY go through this particular post... <https://greatawakening.win/p/11RhAqC755/logical-thinking-could-this-be-t/c/>

Another point:

If you watch POTUS' video, you'll notice it's very quiet in the background. If it was done at the rally (protest) there would have been a lot of noise in the background. This points toward it being recorded BEFORE the siege of the Capital.

There's recent reports that President Trump is at a nuclear command center. There he would be afforded complete security while he monitors (and takes action against) foreign and domestic threats.

And, remember the TWO Executive Orders which allow "us" to freeze and seize assets (financial, physical, etc.).

Enjoy the show, it's actually getting good!

You're overthinking it. Trump wasn't taking no for an answer but he could tell that Pence wasn't going to do it, which is why he kept saying "hope he does the right thing." Then he led us there so that we could make a statement before President Biden opens up the borders and raises taxes on the shutdown economy.

I understand righteous anger people were feeling but I believe the emotional reaction or falling for the setup or whatever was a miscalculation. FUck that, I want to take credit for invading the Capitol. I want those Congress Critters to fear us. I want them to know that at any moment, we can be back to do the same thing over and fucking over until they get the message to leave us the fuck alone. Don't shy away from this!!!! Embrace it!!! We The People rose up in a glorious rage and punched The Swamp on the nose....own it, love it and let them know we can and will do it again.

The proof is so obvious. They shot an unarmed lady in cold blood because she was not the authorized person to storm enter the chambers.

Meanwhile, the deep-state plants were allowed to roam, enter the Speaker of the House's office, and climb down from the observation gallery and pose for photo ops.

The people who fought their way into the capital, as is their right in this country, were patriots. Some liberal agitators is possible, but the effort was led by patriots.

Unpopular opinion here: The Democrats, again, outsmarted us and used this to their advantage. Remember, they're all about optics and as always, make any of our good intentions look bad. They brought in agitators, they allowed a breach in the Capital Building.....and we fell right for it.

They didn't outsmart us. They didn't do anything but push a particular narrative about the events. They can do that because they control the media. We already know that. No matter what happened yesterday, they were already going to find a way to paint us as violent terrorists trying to overthrow democracy. That's not outsmarting us. That's just demonstrating that they control the narrative, which we already knew.

Right, I agree, You may not get it already but they control the media, education, information technology, social media, etc, etc. They control the narrative and have for a LONG LONG time

They've been outsmarting us with pandering, narrative.

On the note of cops removing barricades, the video showing that was taken AFTER the initial breach. If you listen Marcus, the reporter who recorded it initially, says "they just breached the Capitol again". There were still people inside the building (at that time the senate wing and most areas were cleared out), there is no evidence cops removed barriers for the initial breach and many videos of making, pepper balls, and protestors physically breaking windows to enter the first time.

Further proof we can not trust any news coming from the DC area. Curious to see what happens today? Will the people that want to purge DC show up? Either way discussing all of this where they can read it does no good. We need to get organized. The militant right scares the government far more than the militant left.

I was there. I climbed the scaffolding at the capital. I pushed forward with my fellow Americans.

I was teargassed by Capital Police. I was yelled at by Capital Police.

But let me make this perfectly clear. From my perspective on the steps, scaffolding and on the landing.

I never saw a Capital Police officer strike, threaten or draw a weapon on any patriot.

I never saw any patriot strike, threaten or draw a weapon on any capital police officer.

When I got to the door to go in there was a Capital Police Officer by herself at the door. She was not blocking the doorway, not telling anyone to stay out and clearly did not feel threatened and was holding a crumpled up and dirty American flag.

I chose not to go in because I was armed. She saw me standing there looking in while others passed. She took two steps closer and I thought she was going to try to force the door closed, but handed me that flag. She said, "thank you for your service, (my hat & shirt let her know I served) this was being stepped on" and handed me the flag.

The Capital Police presence was always pathetically small and they knew if they did anything more than minor things like flash bangs and tear gas they would incite violence. They behaved as they should to defend the Capital but even when people were let inside if they did not run wild they were not bothered.

Only 2 people that I could see inside the capital got out of control and both the Capital Police and the Patriots, TOGETHER, worked to stop them.

I can not say they were antifa but I can say the people on my bus to DC were aged 60 to 84. The people "storming" the capital were 40 to 75 ish and averaged well to the older side, probably 55 to 65. But the troublemakers inside and out 25 to 35 at best. That doesn't prove anything but sure looks like false flag stuff.

There were threats being made to an officer with this baton extended. But some guy showed up with i think an axe on his back and after the cop seen that plus he was being told by lots of people to put his baton up he put it away. I have video of it will post if it does not have anything incriminating in it. Once I get home to west texas me and wife driving back now.

I have videos and photos to post too. I was but at a single point in the pan. But from my perspective I saw nothing but Capital Police doing there jobs to defend the Capital and Patriots defending 'our house' and they struck the right

balance of protest without over reaction on both sides. From exclusively my place in the fight

01/06/2021 I personally witnessed a 40-ish man dressed in drab meticulously remove fence posts and plastic netting with "No Entry By Order Of Capitol Police" signs--a dozen or such--as if he was performing some civic duty. Today, 01/07/2021, I read confessions of parties hired to perform such actions/ to incite violence. (I wish I had thought to photograph him at close range.) I've also heard/read how multiple Antifa followers disguised as Trump advocates were identified by cyber intelligence.
